Physical-response checks and observed process memory
RSS includes imports, seed SCF and timed phases; validation is outside that window
HF · max error over modes and θ components
PBE · max error over modes and θ components
E/Eh: native FD
E/Eh: PySCF FD
μz/(e bohr): native FD
μz/(e bohr): PySCF FD
smallest-step gate
|AD − FD| for normalized observables
Dimensionless finite-difference step h
HF · fresh-process high-water memory
PBE · fresh-process high-water memory
explicit
implicit
