Water / Cartesian 6-31G*: the selected QP root must be tracked
Same HF, G/W windows and self-energy; continuation does not select the largest-Z peak
MO index 14 (zero-based)
MO index 17 (zero-based)
MO index 18 (zero-based)
Selected root / Eh
Local QP residue Z
Displacement parameter / 10^{-3} bohr
Secant, independent seeds
Newton, independent seeds
Newton, continued branch
Local AD tangent
